

# **RAMMED EARTH RHAPSODY**

## **Presenting an Ancient Green Building Approach for Today's Built Environment**

The Northwest Eco Building Guild has invited SIREWALL Founder Meror Krayenhoff to deliver a slide show and presentation on rammed earth and how it is used in today's built environment.

SIREWALLS® (Stabilized, Insulated, Rammed Earth walls) are a new global standard for healthy, energy efficient buildings.

**Leveraging over thirty years of experience as a green builder, SIREWALL Founder Meror Krayenhoff creates buildings that nourish our bodies instead of polluting them and stand the test of time as a legacy for future generations.**

**Meror will outline his personal journey to develop a system that makes rammed earth construction a viable option in hot, cold & wet climates.**

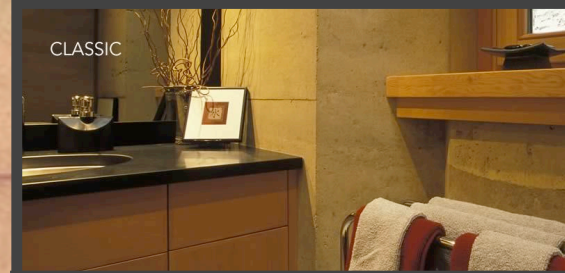

**Learn more about SIREWALL homes & buildings Monday, April 14.**

**Time: 5:30 – 6:45 pm**

**Location: Mclendon's Hardware in Renton: 440 Rainier Ave S**

**Contact: [office@sirewall.com](mailto:office@sirewall.com) or [Info@DAandC.com](mailto:Info@DAandC.com) for more info**
